## Short Courses

Short courses are designed to broaden your knowledge base or provide you with the necessary skills to tackle your next project of passion.

Most of our short courses represent a study module from a nationally recognised qualification which means you can obtain the specific skills you require without committing to an entire qualification. After acquiring your new found knowledge and skill set, you can continue towards obtaining the full qualification by completing another short course or entering into part-time or full-time study.

## Locations

Joondalup Campus  
West Coast TAFE, 35 Kendrew Cres, Joondalup

Wangara Automotive Workshop  
8 Dellamarta Rd, Wangara

## How to enrol

Once you've chosen a short course that suits you, you can:
